SECTION 00010

Delete pages 00010-3 and 4 in their entirety and substitute attached revised pages 00010-3 and 4 therefore.

SECTION 00100

Page 2, Delete FAR 52.215-1 Alt I, "Instructions to Offerors – Competitive Acquisition," and replace with attached FAR 52.215-1 Alt II, "Instructions to Offerors – Competitive Acquisition."

SECTION 01350

1. Page 2, paragraph 1.4. In the 7th and 10th lines, change "will be" and "will also be" to "shall be".
2. Page 2, paragraph 1.5.1. In the 2nd line from the bottom of the page, change "GM" to "metacentric height (GM)".
3. Page 7, paragraph 3.2.2. In the 1st line, change "will be" to "shall be".
4. Page 11, paragraph 3.5.1. In the 1st line, change "are" to "shall be" and "will be" to "shall be".

SECTION 01351

1. Page 1, paragraph 1.1. Delete this paragraph in its entirety and replace the following therefore.

"1.1 SCOPE

The work covered by this Section describes the basic requirements for the casting facility. The Government has furnished a graving site for use as the casting facility. The Contractor may elect to use an alternative casting facility. The Contractor may bid either option or submit proposals for both options. Offers proposing an alternative graving site shall include separate Offeror prepared Bidding Schedule(s). The alternative bid schedules shall be similar to that provided in Section 00010, but shall be revised by the Offeror to reflect the alternative casting facility items and quantities. Alternative casting facilities, if provided, shall be evaluated as part of the Best Value Selection process. The Best Value Selection Board, based on submitted information, will select the casting facility option that provides the best overall value to the Government. "

2. Page 1, paragraph 1.4.1. Delete this paragraph in its entirety and replace the following revised paragraph 1.4.1 therefor.

“1.4.1 Casting Facility

Payment for this item of work will be made at the contract lump sum price for “Graving Site”. Price and payment shall constitute full compensation for all engineering services, labor, equipment and materials for developing the casting facility. Payment shall include, as applicable, site development costs including, but not limited to, earthwork, erosion and sedimentation control (e.g. silt fence), haul roads and paving systems, the casting bed, piping and pumping systems, power and lighting systems, protective dikes, closure systems, closure embankments, dewatering system installation, operation and removal, cut-off walls, on-site batch plants and casting facilities, precast facility, field offices and site restoration. Payment shall also include all engineering services, survey costs, material testing for products incorporated into the work. Payment shall include, as applicable, securing right-of-way and the appropriate permits, site development costs and all other incidental costs. Payment shall also include the restoration of the site to preconstruction grades, plus overbuild to account for settlement. When alternative casting facility proposals are submitted, the Offeror’s revised bidding schedule shall also include the reduction and/or deletion of contract items included in Section 00010 (i.e. “Granular Backfill, Graving Site” and “Clearing and Grubbing”). New items and quantities may be added to the Bidding Schedule as the Offeror deems necessary.”

3. Page 2, paragraph 1.5.1. In the 6th line, change “will be” to “shall be”.

4. Page 3, paragraph 1.6.1. In the 1st line, insert “of the casting facility” between the words “and the location” and “as part of the”.

SECTION 01354

Page 6, paragraph 3.2.3. Add the following to the end of this paragraph.

“The densities (unit weights) shown for the reinforced concrete and post-tensioned concrete slabs include an estimated allowance for steel reinforcement weight and are greater than the concrete material densities requirements listed in Sections 03301 and 03700.”

SECTION 01355

Page 3, paragraph 3.1.2. In the 1st line, change “will” to “shall”.

SECTION 02355

Page 1, paragraph 1.3.1. Delete the 2nd, 3rd, 4th, and 5th sentences in their entirety and substitute “Payment for pile test will be made at the applicable contract unit price for “Compression Test” and “Lateral Load Test” “ therefore.

SECTION 02381

1. Pages 4 through 6, paragraph 1.6. Delete this paragraph and all its subparagraphs in its entirety and replace with the following.

“1.6 RESERVED”

2 Pages 6 through 8, paragraph 2.1.1.2. Delete this paragraph and all its subparagraphs in its entirety and replace with the following.

“2.1.1.2 Sources and Evaluation Testing

Stone shall be obtained in accordance with paragraph 01100-13. If the Contractor proposes to furnish stone from a source not listed in paragraph 01100-13, the Government will make such investigations as necessary to determine whether acceptable stone can be produced from the proposed source. Satisfactory service records on work outside the Corps of Engineers will be acceptable. If no such records are available, the Government will make tests to assure the acceptability of the stone. The tests to which the stone may be subjected will include petrographic analysis, specific gravity, abrasion, unit weight, absorption, wetting and drying, freezing and thawing and such other tests as may be considered necessary by the Contracting Officer. The following guidance is provided for use by the Contractor in analyzing a source of stone not listed in paragraph 01100-13. Stone that weighs less than 155 pounds per cubic foot or has more than 2 percent absorption will not be accepted unless other tests and service records show that the stone is satisfactory. The method of test for unit weight and absorption will be ASTM C 127 except that unit weight will be calculated in accordance with note 5 using bulk specific gravity, S.S.D. Samples of stone from a source not listed in paragraph 01100-13 shall be submitted to the Contracting Officer for testing and acceptance prior to delivery of any stone to the site of the work. Samples shall consist of at least seven pieces of stone, roughly cubical in shape and weighing not less than 100 pounds each. All such samples shall be taken by the Contractor under the supervision of the Contracting Officer. The samples shall be shipped at the Contractor's expense to the Waterways Experiment Station, 3909 Halls Ferry Road, Vicksburg, Mississippi, at least 90 days in advance of the time of the placing of the stone is expected to begin. The tests will be conducted in accordance with applicable Corps of Engineers test methods of and will be performed at the Waterways Experiment Station, Vicksburg, Mississippi. The cost of testing will be borne by the Government.”

SECTION 02451

Pages 3 and 4, paragraph 1.4.5.2. Delete this paragraph in its entirety and substitute the following therefore.

“1.4.5.2 Pulled Casings for Inspection

Each casing pulled at the direction of the Contracting Officer for inspection and found to be in good condition, shall be redriven in an adjacent location as determined by the Contracting Officer. Undamaged pulled casings when redriven acceptably will be

paid for at an equitable adjustment and shall be made in accordance with the Contract Clause in Section 00700 entitled, "*Changes (FAR 52.243-4)*", which price and payment shall include pulling, redriving and backfilling the pile hole if required. When a casing is pulled for inspection and found to be damaged, no payment will be made for originally furnishing, delivering, and driving such casing or for the operation of pulling and it shall be replaced by another casings which will be paid for at the contract lump sum price. "

SECTION 02459

Page 8, paragraph 2.1.3.3. Delete the last sentence in its entirety.

SECTION 02482

1. Page 3, paragraph 3.1.2. Delete the first sentence and insert the following: "The top two (2) feet of the canal within the project area below the water surface shall be dredged by a closed bucket dredge that releases water but minimizes fall back of excavated material into the channel."

2. Page 5, paragraph 3.3.3.1. Delete the fourth sentence and insert the following : "The top two (2) feet of existing material from the dredge area contains a low level of contaminants that are typically found in canal bottom dredging in the region. This material shall be removed and disposed of in a Type 1 Industrial landfill which is permitted by a State Department of Environmental Quality (DEQ) and will accept "Free Liquid" Material. "

3. Page 6, paragraph 3.4.1. Delete the first sentence and insert the following: "Environmental dredging shall be performed to a vertical tolerance of minus six (-6) inches below the existing channel bottom elevation."

SECTION 03230

Page 5, paragraph 2.1.2.3. Add the following before the second to last sentence of this paragraph.

"The grout shall have a minimum compressive strength of 5,000 pounds per square inch at 28-days. The compressive strength at jack release shall comply with the post-tensioning manufacture's recommendation."

SECTION 03301

1. Page 2, paragraph 1.3.2.1. Add the following to the end of the paragraph:

"Also included in this bid item is the concrete placed above the steel pipe piles as specified in 01354-3.1.2."

2. Pages 03301-9 through 11, paragraphs 1.6.1. Delete this paragraph and all its subparagraphs in their entirety and substitute the following therefore.

“1.6.1 Aggregates

The aggregate sources listed in the Section 01100 provision entitled “AGGREGATE SOURCES” have been tested and at the time testing was performed, these sources were capable of producing materials of a quality acceptable for this project provided suitable processing was performed. If the Contractor proposes to furnish aggregates from a source not listed in “AGGREGATE SOURCES”, samples consisting of not less than 500 pounds of each size coarse aggregate and 300 pounds of fine aggregate taken under the supervision of the Contracting Officer in accordance with CRD-C 100 shall be delivered to the Waterways Experiment Station (3909 Halls Ferry Road) in Vicksburg, MS within 15 days after notice to proceed. Sampling and shipment of samples shall be at the Contractor’s expense. The cost of testing one source for each size aggregate will be borne by the Government. If the Contractor selects more than one source for each aggregate size or selects a substitute source for any size aggregate after the original source was tested, the cost of that additional testing will be borne by the Contractor. From 90 to 120 days will be required to complete evaluation of the aggregates. Testing will be in accordance with applicable CRD or ASTM test methods. Tests to which aggregate may be subjected are specific gravity, absorption, cycles of freezing and thawing in concrete, alkali-aggregate reaction, organic impurities, and any other test necessary to demonstrate that the aggregate is of a quality that is at least equivalent to those sources listed in “AGGREGATE SOURCES”. ”

3. Page 13, paragraph 1.7.3. Delete this paragraph in its entirety and substitute the following therefore.

“1.7.3 Concrete Density for Float-In Structure

”The density of the concrete, without reinforcement, used in the float in structure shall be between one hundred forty-two (142) and one hundred forty-six (146) pounds per cubic foot when tested in accordance with ASTM C 138.”

4. Page 19, paragraph 2.1.3.4. Delete this paragraph in its entirety and substitute the following therefore.

“2.1.3.4 Anti-Washout Admixture

Anti-washout admixture shall be RHEOMAC UW 450 as manufactured by Master Builders, Inc, EUCON AWA as manufactured by Euclid Chemical Company, Sikament 100 as manufactured by Sika Corporation, or an approved equal.”

5. Page 19, paragraph 2.1.4.3. Change "CID A-A-52104" to "GSA CCC-C-467C".
6. Page 20, paragraph 2.2.2. After the last sentence insert: "All gate bay concrete coarse aggregate shall be limestone."
7. Add the attached Table 03301-A to the end of this section.

SECTION 03700

Page 7, paragraph 2.3.1. Delete the last sentence in its entirety and substitute "The concrete density (unit weight) shall comply with the requirements stated in 03301-1.7.3." therefore.

SECTION 03800

1. Page 8. Insert the following new paragraph 2.2.1.5 as:
"2.2.1.5 Expansive Grout Fluidifier

Expansive grout fluidifier shall conform to the requirements of ASTM C 937 and shall provide controlled expansion prior to initial setting."

2. Page 9, paragraph 2.2.3.3. After the last sentence insert: "All infill concrete coarse aggregate shall be limestone."

3. Page 9, paragraph 2.2.3.5. Delete the paragraph in it's entirety and substitute the following therefore.

"2.2.3.5 Air Content

Air content as determined by ASTM C 231 shall not exceed four and one-half percent (4.5%). Air entrainment is not mandatory in the infill, acceptable workability maybe achieved by other means."

4. Page 10, paragraph 2.2. 4.1. Delete the paragraph in it's entirety and substitute the following therefore.

"2.2.4.1 General

Nonshrink grout, applied as stated in paragraph 1.3.3, shall be in accordance with Section 03301, "CAST-IN-PLACE STRUCTURAL CONCRETE" except as modified herein."

5. Page 10, paragraph 2.2. 4.2. Delete the last sentence in the paragraph and insert the following. "The aggregate percent and gradation shall be verified by the grout manufacture. The slump and air content shall be in accordance with the grout manufacturer's recommendations."

6. Page 10, paragraph 2.2.5.2. Delete the first two sentences and insert the following therefore: "The cement content of the underbase grout shall be within the range from a minimum of six hundred(600) pounds to a maximum of seven hundred and fifty (750) pounds per cubic yard."
7. Page 11, paragraph 2.2.5.6. Delete the paragraph in it's entirety and substitute with "2.2.5.6 Reserved".
8. Page 12, paragraph 2.2.5.11. Delete this paragraph in its entirety.
9. Pages 13 and 14, paragraph 2.2.6.4. Delete sentences 9 and 10. Insert at the end of the fourteenth sentence the following: "when tested in accordance with ASTM C 143".
10. Add the attached Table 03800-A to the end of this section.

DRAWINGS

Delete Dwgs. 2-1, 2-2, 2-4, 2-5, 2-16, 2-20, 4-4, 5-15, 5-22, 5-23, 8-6, 8-7, 9-3, 10-3, 11-2, 11-4, 11-5, 11-8, 14-2, 14-8, and 14-9 in their entirety and insert the attached revised Dwgs. 2-1, 2-2, 2-4, 2-5, 2-16, 2-20,, 4-4, 5-15, 5-22, 5-23, 8-6, 8-7, 9-3, 10-3, 11-2, 11-4, 11-5, 11-8, 14-2, 14-8, and 14-9 therefore.

52.215-1 INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION (MAY 2001)—
ALTERNATE II (OCT1997)

(a) Definitions. As used in this provision--

“Discussions” are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

“In writing or written” means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

“Proposal modification” is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

“Proposal revision” is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

“Time”, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(c) Submission, modification, or revision of proposals. (1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show—

(i) The solicitation number;

(ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);

(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone and facsimile numbers (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this solicitation; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(3) Submission, modification, or revision of proposals. (i) Offerors are responsible for submitting proposals, and any modifications, or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)(A) Any proposal, modification, or revision received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(9) Offerors may submit proposals that depart from stated requirements. Such proposals shall clearly identify why the acceptance of the proposal would be advantageous to the Government. Any deviations from the terms and conditions of the solicitation, as well as the comparative advantage to the Government, shall be clearly identified and explicitly defined. The Government reserves the right to amend the solicitation to allow all offerors an opportunity to submit revised proposals based on the revised requirements.

(d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall—

(1) Mark the title page with the following legend: This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with--the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

(2) Mark each sheet of data it wishes to restrict with the following legend: Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award. (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(11) The Government may disclose the following information in postaward debriefings to other offerors:

(i) The overall evaluated cost or price and technical rating of the successful offeror;

(ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

(iii) A summary of the rationale for award; and

(iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

(End of provision)
